

CYBER THREAT INTELLIGENCE REPORT

Date: 2026-01-17 23:32:18

DETECTED THREAT: SQL INJECTION

Confidence Score: 51.00%

Original Log Data:

"Suspicious SQL syntax detected in HTTP POST request from IP 45.33.22.11. Payload contained 'UNION SELECT * FROM users'."

Recommended Actions:

Solution: Sanitize all user inputs. Use Prepared Statements (Parameterized Queries). Patch vulnerable input fields immediately.
